#### SMART SUGGESTIONS:

**Introduce Early:** Start introducing the potty training seat to your baby early to familiarize them with the concept.

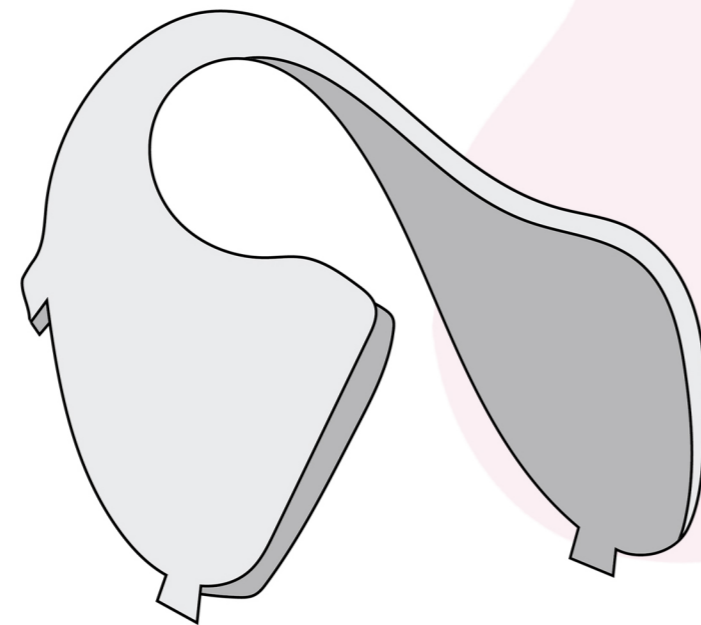

**Choose a Fun Design:** Opt for a seat with a colorful and fun design to make it more appealing to your little one.

**Make It a Routine:** Set a consistent potty time routine, like after meals or before bedtime, to create a habit.

**Model Behavior:** Sometimes, babies learn by watching. Let them observe older siblings or parents using the toilet.

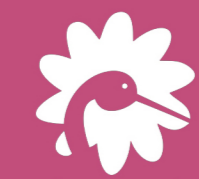

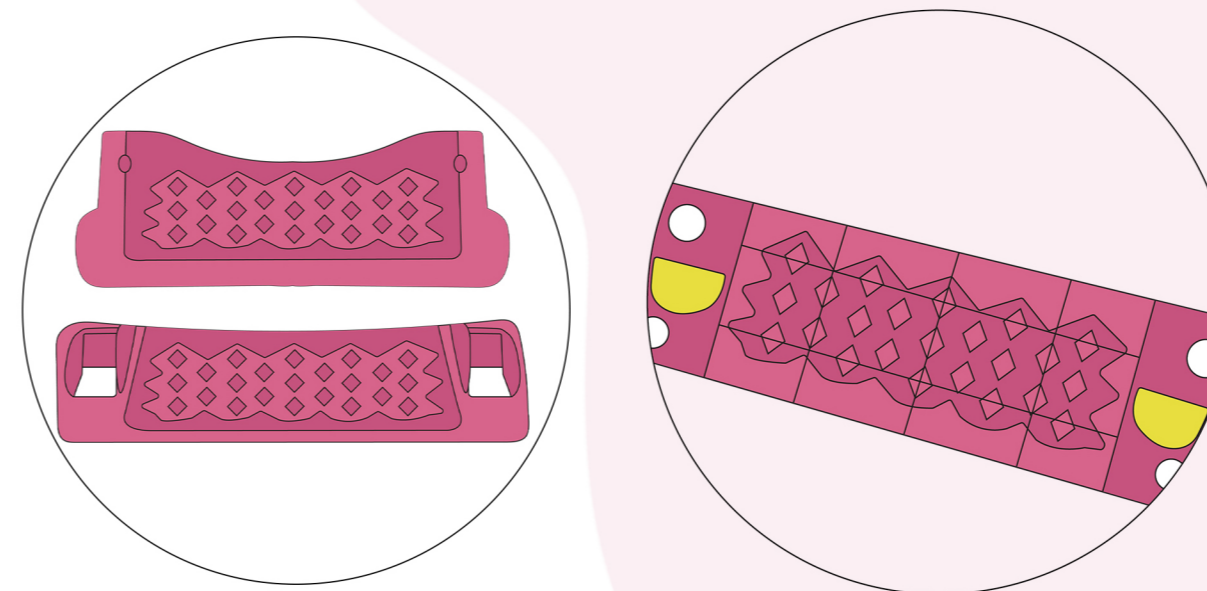

### Cushion Comfort

Removable cushion is easy to clean and soft enough for kids to sit comfortably without any discomfort.

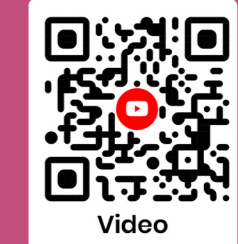

### Reinforced Base and Pedal

5 anti slip rubber strips on the bottom of the pedal, and plasticity texture on surface which makes it stable & safe.
